# A Note for Parents & Caregivers

Welcome to your child's first coloring experience!

This book is specially designed for toddlers who are just beginning to explore colors, shapes, and the joy of drawing.
Each page features big, simple pictures with extra-thick lines to make coloring easy and fun for little hands.

At this age, coloring is not about staying inside the lines.
Scribbles, marks, and bold strokes are all part of healthy development. As your child colors, try naming the pictures, talking about colors, and celebrating every effort.

This book is meant to be enjoyed slowly, together or independently, with curiosity and encouragement. There is no right or wrong way to color — only joyful learning through play.

Thank you for sharing these early creative moments with your child.
